Press Release: ADAC Zurich Nurburgring 24 Hour Pre-Race Report

Hey! The ADAC Zurich Nurburgring 24 Hour race is less than a week away. I am finalizing preparations to leave for Germany on Tuesday while the Rotek Racing crew is putting the final touches on the Audi TTRS. I am really looking forward to getting back to the Nurburgring to bring home another victory for the Rotek Racing team.

For the ADAC Zurich Nurburgring 24 Hour, I am excited to announce I will be representing Children's Tumor Foundation Racing4Research (R4R) program. Children's Tumor Foundation is dedicated to funding research to find effective treatments for neurofibromatosis, also known as NF. NF is a genetic disorder that causes tumors to grow on nerves in the body and affects one in 3000 people - male, female and all races equally. Children's Tumor Foundation developed the Racing4Research program to utilize professional motorsports to increase awareness of NF and raise funds for research. May is Neurofibromatosis Awareness Month. For more information, please visit www.ctf.org or www.racing4research.org.

After years of avoiding social media I finally have something worth promoting, so THILENIUS GROUP, LLC is now live on Facebook at www.facebook.com/ThileniusGroup, Twitter <https://twitter.com/ThileniusGroup> and on my business website at www.thileniusgroup.com. Please follow or like or whatever it is you are supposed to do while I fumble my way through social media for the first time with updates from the ADAC Zurich Nurburgring 24 Hour.
